(706) 798-9323

Georgialina Physical Therapy Associates was founded in the year 2000 as the only Outpatient Physical Rehabilitation Agency in the greater Augusta area. We have grown through the years and now offer services in three convenient locations - Evans, South Augusta, and North Augusta.

We are 100% locally owned and operated and we pride ourselves on having a friendly, professional staff that is dedicated to providing you with the highest quality care and service available. We treat a broad range of diagnoses and receive referrals from over 500 different physicians within our community.

*"My care from the therapists at Georgialina was excellent. Appointments were made at convenient times and I was seen promptly. My therapist was systematic in the analysis of my symptoms and explained things very clearly.*

*The entire staff was professional and treated me with kindness and respect. I would highly recommend them to anyone."*

# GEORGIALINA PHYSICAL THERAPY

## Why should I see a physical therapist?

Physical therapists (PTs) are experts in the art and science of the evaluation and treatment of human movement dysfunctions. We care for people of all ages and treat a variety of muscle, joint and neurological conditions.

Before you try drugs or have surgery, you should see one of our therapists. Physical therapy is clinically proven to be an effective treatment for a variety of conditions.

## Why you should choose Georgialina Physical Therapy.

- Three convenient locations with walk-up parking
- Same-day appointments available
- No wait time in the lobby
- Open evenings to accommodate your schedule
- One-on-one personalized care for faster results
- Hands-on treatment techniques that set us apart
- We offer specialized Aquatic Therapy Programs

*"I appreciate all that you did for me on my road to recovery. Your care and concern for me meant a lot. I never felt uneasy or out of place at your office. The staff is always friendly and outgoing; I felt like I was among family. I will gladly refer friends and family to your clinic as my experience was very satisfying."*

– Robert Bennett
